Information Disclosure Statement

1. The information disclosure statement filed on May 20, 2004 fails to comply with the provisions of 37 CFR 1.97, 1.98 and MPEP § 609 because reference Zingales, "Uncertainty in Measurement Science", lacks the publication date. It has been placed in the application file, but the information referred to therein has not been considered as to the merits. Applicant is advised that the date of any re-submission of any item of information contained in this information disclosure statement or the submission of any missing element(s) will be the date of submission for purposes of determining compliance with the requirements based on the time of filing the statement, including all certification requirements for statements under 37 CFR 1.97(e). See MPEP § 609 ¶ C(1).

Reasons for Allowance

2. The combination or method as claimed wherein a process monitoring system comprising combining first and second sensor signals to obtain apparent status information related to a process (claims 1, 10, 16) is not disclosed, suggested, or made obvious by the prior art of record.

Maren et al. (US 5,850,625) discloses a fusion unit (3) for combining two sensor signals (Fig. 2). However, Maren et al. does not disclose combining the sensor signals to obtain

apparent status information related to a process and comparing the combined signal with a reference information.

Luo et al., "A Tutorial on Multisensor Integration and Fusion", discloses a fusion box for combining two sensor signals (Fig. 1). However, Luo et al. does not disclose comparing the combined signal with a reference information.
